OGDEN'S ELECTION.

The Fight Between the Liberals or Gentiles and the Mormons.

Many Arrests Made to Prevent Citizens From Casting Their Votes.

A United States Marshal Interferes and Sees Fair Play.

Bonnybel-Durant Jury Receive the Charge and are Locked Up.

Important Election.

OGDEN, February 11.—The most important election that has ever taken place in Utah took place today. It was fought by the gentiles, or liberal party for a foothold in the territory by the election of a mayor and council. The new city hall was crowded at all the precincts where the election proceeded at four different ballot boxes. The city voted as a whole and not by wards and to accommodate the large number of voters four voting places were necessary. The Mormon, or people's party now have the offices of the city and at daylight their brass bands and drum corps were promenading the streets. With the inauguration of the voting a system of intimidation was commenced on the part of the Mormons by arresting gentiles before they had a chance to vote and hurrying them off to jail this was anticipated by the opposite party who had Marshal Dyer present and a squad of United States troops quartered at the Brown hotel across the street. The marshal at once stopped the arrests until the voter had a chance to tender his vote and be passed upon by the judge. After this the election passed off quietly. The result will not be determined before midnight.

Bonnybel-Durant.

DENVER, February 11.—In the Durant and Bonnybel mining suit today the morning session was taken up largely by Hon. Willard Teller, who made the final argument for the Bonnybel side. He was succeeded by C. J. Hughes who delivered the closing address in favor of the Durant. The court then instructed the jury and the charge was regarded as generally favorable for the Durant people, though no exception could be taken to it. The jury retired about 4 o'clock, and at 12 o'clock they had not reported, they were locked up for the night. Many persons thought that the Bonnybel would secure a favorable decision, but the delay of the jury has disputed this point, and a disagreement is now looked for, in which event the case will have to be tried over.

Cabinet Gossiping.

INDIANAPOLIS, February 11.—Nothing new has developed today at the cabinet. There is a perceptible decrease here in the daily volume of cabinet gossip. General Harrison's visitors today were from widely different sections—Massachusetts, Washington territory, and New Mexico being represented. James A. Spalding of Santa Fe, New Mexico, managing editor of the New Mexican, called to advocate his old friend General Powell Clayton for a place in the cabinet. Mr. Spalding is an earnest advocate of statehood for New Mexico and vigorously repels the charge that the people of that territory are not prepared and able to successfully assume an independent government. He says the objections at this time come from a few politicians and bankers in the territory who protest that if the territory is admitted they will lose their grip on the control of affairs. The statement which is widely published that the official records of the legislature and courts are kept in the Spanish language he declared to be a fabrication. He is the public printer of the territory. Spalding also says that there are three prominent names mentioned for the governorship of New Mexico, Joseph W. Dwyer of Raton, formerly private secretary of Chief Justice Chase; A. L. Morrison of Santa Fe, ex-United States marshal under Arthur, who took a prominent part in the Irish conventions in New York as an organizer of the Irish-American republican leagues and L. Bradford Prince, ex-chief justice of the territory under President Hayes.

"The Marine" at Denver.

DENVER, Colo., February 11.—George La Blanche, "The Marine," arrived in the city this morning with with his trainer, Chas. Gleason. La Blanche was driven out to Sloan's lake, where he met Ed Smith, with whom he is matched for a mile race this city on the 22d for $1000 a side. Smith has been in training at the lake for two weeks and La Blanche will go into immediate training at Joe Lowe's place, a short distance from the city.

Confirmations.

WASHINGTON, February 11.—The senate today confirmed the nominations of Lieutenant Colonel Wm. A. Rucker to be office of assistant paymaster general with the rank of colonel and Major Chas. M. Ferrell deputy paymaster general with the rank of lieutenant colonel.

Stock Market.

NEW YORK, February 11.—Money on call easy at 1 to 2, prime paper at 4 to 6. The stock market was remarkably strong today although the advances noted were in specialties principally. The three leading groups of shares were trunk line securities and canal stocks, which were all fluctuating. At the opening the feeling was very bullish but the first prices were quiet as compared with the final figures of Saturday, specialties took the lead in the upward movement but Oregon Short line came to the front and was followed by Union Pacific. Burlington was strongly attacked after noon and trading in the rest was somewhat restricted. The market closed strong generally at close to the best figures. Government were dull but firm. Petroleum opened strong at 80¼ and closed steady at

CITY COUNCIL.

An Interesting Meeting of the Council Last Night.

Sale of the New Water Bonds to Boston Men.

A St. Louis Firm Given the Contract for the Water Pipe.

Petition to Change the Course of the East Branch of Shook's Run.

The adjourned meeting of the city council last night was well attended, all of the councilmen being present but Calloway of the Third ward. It was half past seven when the mayor called the meeting to order. The meeting was to consider bids for the sale of the new water bonds and for the purchase of water pipe.

Upon the call of the roll, the head of petitions communications, etc., was taken up and the clerk read the bids for the sale of the water bonds.

The agents of nearly all the banking and money loaning firms which had bids in were present, and in their desire to impress the councilmen with the superiority of their houses over all others, made things exceedingly lively. It was what is usually known as a "cat and dog" time. The bids called for the sale of $75,000 worth of water bonds at six per cent interest, due at various periods. The following were the bids:

The Colorado Loan and Mortgage company, by D. Heron, offered to take the bonds at par with accrued interest.

James Kean & Co., of New York, offered $85,502.

The Fidelity Trust Co., of Kansas City, by its agent, C. R. Williams, offered two bids. One was $86,619 75, and the other $86,342 50.

N. W. Harris & Co., of Chicago, by A. N. Harris, offered $86,563. They also had a second bid of $86,877 75.

W. P. Earle, of New York, offered $81,405 for $80,000 worth of the bonds. The bid was endorsed by Mr. W. H. Earle, formerly of this city.

The municipal investment company of Chicago by telegraph bid, $86,501.

The First National bank of Ft. Edwards, N. Y., bid three per cent premium for $2,400 worth.

Spitzer Bros. & Co. of Boston, offered two bids. The first one offered $26,027 for $25,000 worth of the bonds and the right to take as many more as they chose at the same rate. The second bid was $87,025 for the whole lot. Their agent, Wm. A. Burnett, desired to withdraw the first bid, but it was refused.

After considerable discussion and argument Alderman Lawton moved that the bid of Spitzer Bros. for the whole amount be received as it was the highest. The motion prevailed by a unanimous vote.

The mayor was directed to sign a contract with the firm strictly in accordance with their bid, which requires that the bonds are to be legally and regularly issued and they are to be furnished with a certified copy of the proceedings of the council in relation to the issue of the same prior to paying for them. The city is to draw on them with the bonds attached as the money is required.

On motion the mayor was requested to have the bonds printed.

The clerk then read the bids for the 10 inch water pipe. The following are the bids per ton delivered in this city: O. A. Bogue & Co. of Chicago, $46 25; H. G. Tate of New York, $46 50; Lake Shore Foundry of Cleveland, O., $43 50; James B. Crandall of Denver, $56 35; Addison Pipe and Steel company of Cincinnati, $37; Ripley & Bronson, St. Louis, $52 95; Shickle, Harrison & Howard Iron works of St. Louis, $52 80, and all branch castings $60 per ton; Russell & Alexander of this city, $52 80 per ton, and all branch castings, $50 per ton. Their bids also offered to furnish the pipe 50 cents a ton cheaper than any other bid; Rhodes Bros. of Denver bid $52 87 per ton.

The bid of Alexander & Russell occasioned considerable discussion, some of the aldermen arguing that it was not proper to entertain any such offer and others that it should be.

Alderman Skinner moved that the bid of Rhodes Brothers be accepted. Alderman Lawton moved to amend by substituting that all bids be rejected. The amendment prevailed.

On motion of Alderman Lawton the council proceeded to receive open bids for the water pipe. Then followed an interesting auction, as each bid meant a gain of about a hundred dollars to the city.

Russell & Alexander started it at $52 35 per ton. City Clerk McCreery and Mr. J. P. Barnes, representing Rhodes Bros., offered $52 30. The agent of Shickle Harris & Howard bid $52 25. Russell & Alexander stepped out at this point and the agents of the other two companies ran it down to $51 75 at which figure it was given to Shickle Harris & Howard.

On motion of Alderman Hinchcliff the bids were closed and the contract awarded to the above named firm the vote standing ayes 6 nays 1.

The mayor and the city clerk were instructed to enter into a contract with the firm according to the published notice for bids and upon motion of Alderman Skinner the firm was required to give a bond of $20,000 for the fulfillment of the contract.

A petition regarding the change of the east branch of Shook's run was received and referred to the committee on streets alleys and ditches.

Upon motion the council then adjourned.

PARRISH'S ADDITION!

Only 3 Blocks from Cascade Avenue!
Only 3 Blocks from The Antlers Hotel!
Only 4½ Blocks from Post Office!

THE STREETS IN PARRISH'S ADDITION

Are 100 to 140 feet in width. THE ALLEYS are all 20 feet wide. There are no 60 or 80 feet streets, and narrow, 16 feet alleys, such as are found in other loudly advertised "Additions," with high sounding titles, where you pay high prices for lots, without duly considering that you are throwing away your money.

In the Alley Behind Every Lot in Parrish's Addition

There is a 3-inch Water Pipe, connected at Chestnut street with a 16-inch main; the Largest in the City's System. THE MAIN CITY DITCH, taking pure, clear water from the Fountain, runs just back of PARRISH'S ADDITION, and within a stone's throw of it.

YOU ARE SURE TO GET WATER

(Both from Pipes and Ditch) in PARRISH'S ADDITION if there is any water in the Fountain, even if other parts of the city are suffering from scarcity of the precious fluid.

REMEMBER THE FOREGOING, and then, when I tell you I will sell you a First-Class

Lot in Parrish's Addition for $350

To $1,000 a full size lot 50 by 190 feet. Do not hesitate a moment about buying. You can buy two lots on a corner, and erect pretty little cottages ACROSS THEM, giving each cottage a neat, pretty little yard, and readily rent them, owing to the location, etc.,

To Pay You 25 to 35 Per Cent Per Annum on the Entire Investment.

WHERE CAN YOU DO THIS ELSEWHERE?

THE STEELE CAR LINE RUNS THROUGH PARRISH'S ADDITION, from East to West, and will doubtless soon be extended to the North, past the "Mesa Road," up to THE ROCK ISLAND SHOPS. *Lots are sold on Terms to Suit Buyers, if possible.*

I AM ALSO SELLING

LOTS IN CALVERT HEIGHTS!

On Easy Terms, and at from $300 to $400. They bear very much the same relation to

COLORADO CITY,

As do Parrish Addition Lots to Colorado Springs, and

I CAN RECOMMEND THEM AS AN INVESTMENT!

SURE TO PAY A BIG PROFIT
DURING THE COMING YEAR.

CALVERT HEIGHTS!

Is surrounded by growing and progressive enterprises. THE VIDELAND SHOPS lie at its Northeast corner. Colorado City proper is North and Northeast of it. Rott's Additions join it on the North and Northwest. Colorado Springs itself is in full view, only two miles to the Southeast, and last though not least important,

The Great Glass Manufacturing Works

Are to be erected (at once) just south of CALVERT HEIGHTS. I have arranged to have every lot supplied with PURE WATER IN PIPES.

THE LOCATION IS SUPERB!

THE SURROUNDING VIEWS
ARE MAGNIFICENT!

Last year I recommended you to buy lots in Parrish's Addition, and they have paid a better Profit than any other lots on the market. This year I urge you to add to Your INVESTMENTS AS MANY LOTS IN CALVERT HEIGHTS as you can afford to buy, with the result that, before the year is out, *you will again be glad that you have taken my advice.*

CALVERT HEIGHTS! BUY SOON!

There are not very many lots altogether, and those who apply late, may find them all gone, and will have *to Pay in Advance.*

The fifth concert of Mr. Winkler's series will be given to-morrow afternoon in the lecture hall of the First Presbyterian church at 3 o'clock. The programme will include, among the instrumental numbers, "Novelettes" by Godefroi, for piano, violin and 'cello, a "Gavotte" by Pirani, for piano, solo, and Max Bruch's "Violin Concerto" Miss Robinson's songs will be by Haydn and Berthold Tours Mr. Albert C. Pearson will be the pianist

Hoyt's liveliest, brightest and wittiest farce comedy, a satire on American travelers, which he calls "A Hole in the Ground," will be the attraction at the opera house next Wednesday evening. Mr. Charles Hoyt, the clever and versatile author of the play, also wrote "Tin Soldier," "Brass Monkey," "A Rag Baby" and others equally bright and popular, and they have made his name familiar in all parts of the country. It is not necessary to give the plot of "A Hole in the Ground." There isn't much plot claimed for it, and perhaps the smart and breezy way in which its author accounts for it not being a tragedy is the best description of what it really is.

A new time card goes into effect on the Denver and Rio Grande railroad this morning, affecting nearly all trains, and it should be carefully examined by all who have occasion to use the road The morning train to Denver leaves at 8 30 a. m., arrives at Denver 11 35 Leaves Denver returning at 6 05 p m and arrives at Colorado Springs at 8 57 p m., thus giving over six hours for business or pleasure in the metropolis The 2 25 p m. train arrives at Denver at 7 30 p m. The Salt Lake train leaves at 1 35 p m. and arrives in Denver at 5 40 p m, in time for all connections, either via the Burlington or the Union Pacific There is no change in trains to and from Kansas City and St Louis via the Missouri Pacific.

MONUMENT MATTERS.

MONUMENT, February 16, 1889.

Miss Eckart, a prominent teacher of Colorado Springs, was the guest of Frank Welty and wife over Sunday.

Mrs. Susie Prigg, of Palmer Lake, also Postmaster Brown and Carl Arnewalt of the same place, were visitors at Monument on Saturday last.

Among those who visited Monument the past week we notice J. W. McLain, the popular and efficient manager of Bacon & Cowell's establishment at Colorado Springs, also David Measham and Master Willie and Miss Lucy Measham, of the same place.

The potato market is livening up some [illegible]. W. H. Walker shipped a car load from this place during the past week to New Mexico. L. B. Watson will ship a car to Southern Kansas during the present week. The price paid at the present time is 55 cents per hundred.

UNITED WORKMEN.

Organizing Regular Order Whose Grand [illegible] Meets in the City Today.

Colorado Springs is becoming a favorite place for meetings of orders and other societies. Last fall three of the grand orders of secret societies met in this city, and to-day another one will begin its session. It is, perhaps, natural that this city should be selected for such meetings, as its great beauty, central location, hotel accommodations and the unbounding hospitality of its citizens combine to render the stay of a large body of persons within its boundaries really pleasant. The grand lodge of the jurisdiction of Colorado, New Mexico and Arizona Ancient Order of United Workmen, begins its session in this city to-day and will probably be in session two days or more. The grand body is composed of about ninety delegates and grand officers who will be heartily welcomed and entertained by members of the order and by the citizens generally.

The Ancient Order of United Workmen is the oldest and largest beneficiary organization in the United States. It is now thirteen years old, and its growth has been exceedingly rapid, numbering on September 1st, 1888, 202,814, to which it has increased until now four or five thousand more. The order is divided into grand and lodge jurisdictions, each grand lodge containing 2000 or more members. Each grand jurisdiction is composed of subordinate lodges. It is essentially a benevolent organization and seeks to relieve the mental and moral natures of its members. It requires a belief in a Supreme being and recognizes as a fundamental principle that usefulness to ourselves and others is a duty which should be the constant aim and care of all, and that in the discharge of this duty men should secure protection for those dependent upon them. Its objects are stated as follows:

1. To embrace in its membership and secure equal protection to all classes and grades of labor, mental and physical; to improve earnestly the moral, intellectual and social condition of its members, to endeavor, by wholesome precepts, fraternal admonitions and substantial aid, to inspire a due appreciation of the stern realities and responsibilities of life.

2. To create and disburse a fund to the beneficiaries of its deceased members as hereinafter may, while living, direct; thus enabling them to protect their families against want.

3. The adoption of such secret work and means of recognition as will insure protection of its members wherever a lodge may exist.

4. To encourage new inventions and improvements, to encourage research in art, science, literature, and, when practicable, to obtain a library for the use of its members.

The organization presents a means of [illegible] insurance, besides the social benefits. The means of creating and disbursing the sum of $2000 to which the heirs of each member are entitled upon his death is as follows: Each applicant for becoming a member of the order [illegible] with the financier of his lodge [illegible] what is known as the "benefit fund." This is held intact to pay [illegible] losses, no part of which is used for any other purpose. Thus on the first day of each month every member has on deposit $1 in the hands of the lodge financier, a brother does the officers of the lodge which he belongs in regularly [illegible] on the death to the grand lodge. On receipt of the following month a call is made upon the subordinate lodges to [illegible] the amount of the beneficiary certificate to them the same being one dollar for each member in good standing. [illegible] to the grand recorder out of which [illegible] sum is sent, through the [illegible] to such person as the deceased may have named in his benefit certificate, the surplus being held [illegible] other death claim that may occur, and an assessment of $1 00 is then levied upon each member of the order, [illegible] from the 8th to 20th of said month in which to pay the same. Failure to pay within the prescribed time [illegible] temporarily suspends the certificate of the delinquent which is renewed upon [illegible] of said delinquent within [illegible] days.

[illegible] Lodge, No. 24, of Colorado Springs was organized in December, 1886, with a membership of twenty four. It now has ninety three members, and has had but one death. The lodge meets the first and third Fridays of each month. Badito legion, Select Knights, was organized in December, 1887, with a membership of twenty one.

Badito lodge will have two representatives in the grand lodge this year, Mr. A. H. Corman, the delegate, and Dr. G. W. Lawrence, a grand lodge officer. The delegates have already begun to arrive and the first meeting of the grand lodge will be called at 2 o'clock in Odd Fellows' hall.

Winkler Concert.

The fifth of Mr. Emil Winkler's matinee concerts did not fail to delight its audience as highly as the [illegible] ones had done; but differed from them in that its programme was compiled almost wholly from the works of great contemporary composers. Gade, Jensen and Max Bruch being quite characteristically represented.

The audience showed keen appreciation of Niels Gade's trio, the individuality of whose different movements we appropriately name it "Novelettes." Unfortunately, its dismemberment to form three numbers of the programme robbed it of the charm of contrast in its well-defined characteristics, rendering it difficult of appreciation to those unfamiliar with the work. But the fine style in which it was given made it as effective a *piece de resistance* as the trio has been in all the concerts.

Miss Robinson sang Haydn's "My Mother bids me Bind my Hair," with simplicity and freshness, in charming contrast to the glow and warmth of Jensen's "Maytrch am Thor," nor did she fail in giving Schumann's beautiful "Devotion" with her usual noble sentiment.

The violinist, Dr. Pennington, surpassed all his previous records at the instances in rendering two movements of the highly dramatic and difficult concerto in G minor, by Max Bruch, with great breadth and fullness of tone, being especially successful in the vigorous rhythm of the first movement. A mournful Largo and a la Tzigane Romanza for the 'cello by Kleuzel and Davidoff respectively, were rendered by Mr. Winkler with great sweetness of tone and delicacy of expression throughout, and were warmly appreciated by the audience.

As pianist, Mr. Pearson proved no unworthy compeer of his predecessors, and supported the concerted compositions with great taste and skill. As a solo, he played Pirani's Gavotte, a charming revival of an antiquated musical style, in a delicately clear and vigorous manner, and his fine shading of expression throughout won for the player the applause of an encore, to which he responded with Schumann's poetic "Vogel als Prophet," an admirable foil to the ringing measures of the Gavotte, and as admirably rendered.

The next concert ends the series and will be anticipated with much pleasure as being the best, as well as with great pleasure by the lovers of good music.

Mr. Urie England, the popular left fielder of the Colorado Springs club last year, arrived in the city yesterday for a few days' visit. It is not yet settled whether he is to be a member of this year's club or not.

The Woman's Christian Temperance union will meet in the parlors of the Congregational church this afternoon at 3. A full attendance is desired.

The Misfit clothing establishment which has been doing business in the city for some time expects to pull out for Omaha Neb., on Thursday.

Colonel Robert G. Ingersoll has just delivered another funeral oration in New York. He is beginning to make quite a profession of this. He began by saying We are met to say "a few words of kindness, of regret, of love and hope." To the friends of the deceased the last word must have been a very hollow mockery. There was nothing in his language to suggest hope. He simply gave a lot of pretty sentences, which in the main spoke pleasantly of her life, but there was nothing more

Dr. Le Caron's testimony before the Parnell commission seems to be a tissue of lies. His real name is Beach, and he has been for many years a paid spy of the British government. In giving his testimony, he has given the names of a great many reputable citizens, like ex-Senator Jones of Florida, Mr Fitzgerald, Dr. Carroll of Baltimore, and many others. The papers are filled with denials of his testimony from men of the character named above. He will be proven such an outrageous liar that no personal testimony of his can injure Parnell.

At the meeting in Hyde Park, London, to protest against the treatment of O'Brien, the socialists occupied one platform decorated with flags and a banner containing the inscription, "Remember Chicago." It is rather unfortunate for the Irish cause that these socialists should have been present at the meeting. The red flag showed they were not true Britons, and, therefore, were not acting from patriotic motives. The inscription on the banner showed that they were against law and order. The socialists ... have repelled many who would naturally have sympathized with the Irish cause.

The number of important army appointments which President Cleveland has, through death and retirement, been called upon to make, has been one of the most ... features of his administration. In the regular army organization there are but three major generals, and Mr. Cleveland has appointed three officers to that grade. There are six brigadier generals of the line, and six officers have been ... to this rank in the last four years. The rank of brigadier general also extends to the ten heads of the staff departments, and staff corps of which the president has appointed seven, and the death of General Roger Jones leaves another opening in this rank. Four heads of the inspector general's department have also been appointed. By an act of congress, Mr. Cleveland was enabled to revive for the fourth time in our history the grade of general, which he did by the appointment of Sheridan a few days previous to the latter's death. The death of Sheridan gave Mr Cleveland also an opportunity for the appointment of a commander of the armies. Besides these there have been a number of minor appointments in the inspector general's, judge advocate general's, adjutant general's and quartermaster's department.

The Denver board of aldermen is perhaps the most disgraceful board that that city has ever had. It is commonly charged that several members require fees from applicants for licenses before granting them. On Saturday night the question of voting a license to a saloon keeper within a block of the Arapahoe school came up. The charter provides expressly that a license shall not be granted to any saloon keeper within a block of a school house. But the board of aldermen found a good deal of trouble in construing the law. The president of the board seemed to be the especial champion of the party desiring the license. One of the members said that the saloon was within a block of the school house, and was opposed to granting the license. The president then has asked this alderman to give his reason why he voted for a saloon license within a few feet of a church. The alderman had answered, ... sewer.' But he should have said that the case was entirely different. Churches should be put where they can do the most good. They cannot do any good among the criminal classes, if they are built away from them. But a school is an entirely different thing. It is attended by our youth who are in the formative period of character and should not be subjected to any unnecessary temptation. All vice should be as far from them as possible.

The democratic papers throughout the south are showing a great deal of feeling over the assassination of Clayton. It was not a bit more wrong than the assassination, for example of Judge Chrisholm in Mississippi, in 1877. There were no words of condemnation for the assassins then, but now the strongest denunciations come from democratic sources. It shows a healthful change in the south and that gradually respect for law is increasing. Undoubtedly the killing of so many people in the mob at Birmingham by the sheriff has also helped to bring southerners to their senses. But the Atlanta Constitution, while properly ... this outrage, says "The crime is one which might as well have been committed in Minnesota and Arkansas." This is very far out of the way, for there are no assassinations for political offenses in the north. A man can bring the charge that the ballot box is stuffed and ask to have a recount without taking his life in his hands. The explanation is very simple. It can be said as a general thing that the law has been fairly administered in the north and that it is respected. There may have been one or three who have ... but nothing more. In the south on the other hand there is ... to take the law into one's own hand, and the people have to resort to such means to meet every ... in order to maintain a standing well in the communities in which they resided. We have murderers in the north but they are not cool and ... what may be correctly called ... and ... On the other hand the ... of the most brutal ... that have occurred ... in the south ... the people who have ... of ... being.
